

Greater Data *for the* Greater Good

Igniting a New Era of Better Health Outcomes

Livanta, Advanta Government Services (AGS), and DOMA Technologies, doing business as (DBA) Commence™ bring together decades of leadership in public health, health informatics, clinical excellence, and advanced analytics to help government agencies modernize how they manage, analyze, and act on health data. We deliver interoperable, standards-based solutions that improve data quality,

strengthen program integrity, and accelerate modernization across federal, state, and local health programs. By breaking down silos, streamlining complex workflows, and enabling scalable analytics, Commence™ empowers agencies to accelerate clinical reviews, deliver defensible, evidence-based decisions, advance population health, and protect public trust.

Driving Smarter Health Decisions Through Data, Analytics & Technology

Commence delivers healthcare solutions powered by AI, clinical expertise, and human-centered technology—driving value, clarity, and measurable change for the people behind every program.

Our Core Capabilities & Key Service Areas Include:

Quality Improvement & Quality Measurement Science Solutions

- Clinical Quality Improvement Expertise
 - Quality of Care Oversight
 - EMTALA Investigations
 - Claims and Case Reviews and Analysis
 - Utilization Review and Utilization Management
 - National Beneficiary Helpline/Call Center
